

P-01 POSTER SESSIONS

12.15 – 13.00 h Foyer DEK
 Poster Session
 Chairs J. Claßen, Leipzig, Germany

P-01-001
 Contrast of GSM radiation alpha1 adrenergic receptor in hippocampal CA1 on chronic pain in wistar rat
 M. Ahmadi, Karaj, Iran

P-01-002
 No effect of globus pallidus internus deep brain stimulation (GPI-DBS) in mitochondrial mutation associated generalised dystonia
 B. Bereznai, Budapest, Hungary
 L. Eröss, A. Gal, G. Inczédy Farkas, M. J. Molnar

P-01-003
 L-kynurenine combined with probenecid attenuates changes in CGRP and TRPV1 immunoreactivity of trigeminal ganglion induced by subcutaneous formalin injection into the upper lip of rat
 A. Fejes, Szeged, Hungary
 Z. Bohár, L. Tár, J. Tajti, L. Vecsei, A. Pardutz

P-01-004
 Role of the nested genes ALZAS and ALZAS-1 in Alzheimer's disease
 C. Gano, Dresden, Germany
 E. Kienzl, K. A. Jellinger, B. Janetzky

P-01-005
 Premorbid level of functioning in MS: evaluation of vulnerability of scores on cognitive measures
 G. Giaglis, Langadas, Greece
 E. Paraskevopoulou, S. Kyriazidou, M. H. Kosmidis, N. Tascos

P-01-006
 Modulation of motor cortex excitability by different levels of whole-hand afferent electrical stimulation
 S. Golaszewski, Salzburg, Austria
 A. Kunz, M. Seidl, M. Christova, R. Nardone, E. Trinkka, F. Gerstenbrand

P-01-007
 Outlasting corticomotor excitability changes induced by 25 Hz whole-hand mechanical stimulation
 S. Golaszewski, Salzburg, Austria
 M. Christova, M. Seidl, A. Kunz, R. Nardone, E. Gallasch, E. Trinkka, F. Gerstenbrand

P-01-008
 Hemiplegic migraine with reversible cerebral vasoconstriction caused by an ATP1A2 mutation
 A. Hermann, Dresden, Germany
 B. Rautenstrauss, H. Reichmann, E. Jacobasch

P-01-009
 Electromyoneurographic findings in patients with ankylosing spondylitis
 D. Janculjak, Osijek, Croatia
 I. Stenc Bradvica, D. S. Vukasinovic Soljagic, S. Soldo Butkovic

P-01-010
 Mitochondrial function/biogenesis in fibroblasts from chorea-acanthocytosis (ChAc) and amyotrophic lateral sclerosis (ALS) patients as an indicator of metabolic stress in neurodegenerative disease
 M. Manucharyan, Dresden, Germany
 A. Hermann, R. Gerhard, A. Storch

P-01-011
 Oxygen-dependent molecular pathways in dopaminergic neurogenesis
 L. Pape, Dresden, Germany
 A. Herrmann, A.-K. Meyer, A. Hermann, A. Storch

P-01-012
 Moving to innovative MS patient management: update Multiple Sclerosis Documentation System "MSDS 3D"
 T. Schultheiß, Dresden, Germany
 F. Kratzsch, R. Kempcke, T. Ziemssen

P-01-013
 The effects of the new kynurenic acid derivative to the trigeminal system in the orofacial formalin test of the rat
 L. Tár, Szeged, Hungary
 A. Fejes, Z. Bohár, J. Tajti, F. Fülöp, L. Vecsei, Á. Párdutz

P-01-014
 Effects of the vascular endothelial growth factor (vegf) on periventricular mid- and hindbrain neural precursor cells in the adult mouse brain
 G. Weselek, Dresden, Germany
 A. Hermann, S. Keiner, J. Walter, C. Redecker, A. Storch

P-01-015
 EEG Biofeedback new promising procedure for neurorehabilitation in pediatric neurology. Where we are and where we want to be
 E. Ziakova, Bratislava, Slovakia
 D. Bartko

43rd International Danube Neurology Symposium 2011

FINAL PROGRAMME

6 – 8 October 2011
 Dresden, Germany

www.danube2011.org
